'Preparing the way to future success'

The school's sixth form is there to further develop the independent skills of the young people, helping them to become much more ready and able to sustain a work or college placement. This means that all 6th formers will have a very individual program. This may include local work experience, a college course or some additional time in school.

6th formers will also be directly involved in their own care, cooking, washing, ironing and cleaning. They will also be guided through programmes that help them effectively access and interpret the world around them. This option is only available for a limited number of pupils who are recognised as needing a more individually structured post 16 package and where funding has been agreed with the Local Authority.

For more information contact the Head Teacher
